

# flyindonut

Software Engineering Student

hello@flyindonut.dev | github.com/flyindonut

## EDUCATION

B.Sc. Software Engineering

Expected Graduation: 2026

## PROJECTS

Pathfinder - Visual algorithm explorer (HTML, CSS, Vanilla JS)

Shelf - Personal book tracking app (SvelteKit, SQLite, Drizzle ORM)

Unthread - CLI tool for cleaning email exports (Python, Click)

Tempo - Minimalist Pomodoro timer (HTML, CSS, Vanilla JS)

Cartographer - Campus map with real survey data (Leaflet.js, Python)

Recall - Spaced repetition flashcard system (React, TypeScript)

## SKILLS

Languages: JavaScript, TypeScript, Python, HTML, CSS, SQL

Frameworks: React, SvelteKit, Node.js

Tools: Git, SQLite, PostgreSQL, Leaflet.js, Canvas API

Concepts: Algorithms, Data Structures, REST APIs, Responsive Design

## ABOUT

I build software that starts with something that bothers me.

I care about understanding how things work at a level deeper than strictly necessary. I ship things that real people use.
